

To Our Valued Patients,

Based on guidance from the CDC and our state regulatory agencies, we are happy to announce that we will be re-opening our practice within the next few weeks!

While we are thrilled to get back to work, the health and well-being of our patients, families and staff is and has always been our top priority. We are seeing current patient by appointment to start. In order to ensure your safety, we have added special protocols including:

- We ask that all patients wear a mask upon entering. If one is forgotten, extras are available at our front desk.
- All staff members will wear full protective gear, i.e. masks, shields, gloves.
- Temperatures of patients and staff will be taken upon entry
- All CDC guidelines will be met and exceeded.
- There will be a 30-minute gap between patients. We ask that you arrive on time for your visit and call or text us before coming up.
- Please arrive by yourself to prevent unnecessary contact.
- Treatment rooms will be double disinfected between patients.
- We will have hand sanitization stations and will require thorough hand washing. Patient contact with surfaces will also be minimized
- All orders (contact lenses, frames etc.) can be available for curbside pick up to avoid additional interaction at request.

We look forward to seeing you while we take every precaution to keep you and our staff safe!

Thanks,

Maplewood Vision Care
